

## VL Launches VL OMNI Dashboard

Mississauga, Ontario -- March, 2017

### FOR IMMEDIATE RELEASE

VL has both debuted and demonstrated their new VL OMNI Dashboard for the first time this past week. The VL OMNI Dashboard was enthusiastically received by the elite Amazon Sellers and Vendors who attended Prosper Show 2017.

With the launch of the new VL OMNI dashboard, VL customers can now view critical data movements and statuses while updating information (and more) in a single interface. Businesses can continue to trust VL to move data seamlessly through their infrastructure as they grow, expand and accelerate their business.

To book a one-on-one demonstration of the VL OMNI Dashboard with VL, email the VL team at [info@virtuallogistics.ca](mailto:info@virtuallogistics.ca).

### TECHNICAL DESCRIPTION

VL OMNI is a customized supply chain data integration service for growing omni-channel businesses in North America and the UK. We are focused on helping businesses function more efficiently and effectively by providing deep custom integration services. We provide integration between API-driven applications as well as handling traditional EDI and communications methods (AS2, FTP, email).

We service these needs in the cloud through our VL OMNI platform which runs on Amazon Web Services. Serverless cloud computing lets us build scalable and cost-effective integrations that can handle transaction bursts automatically without the need for provisioning, configuring, and/or managing servers.

The VL OMNI Dashboard allows you to view and report on the following:

- Channel activity
- Transaction activity
- Inventory/price sync
- Alerts and notifications
- Key metrics

---

## FUNCTIONAL INFORMATION

- Sales orders, confirmations, fulfillments, invoices
- Returns
- Inventory and price sync
- Purchase orders and receipt confirmation
- Warehouse integration

## TECHNICAL INFORMATION

VL OMNI integrates with almost unlimited applications, enabling you to track most typical transactions. These include: orders in, orders out, invoices in, invoices out, email notification on orders, shipping status update, inventory sync, order acknowledgements, inventory updates, price sync, warehouse orders in/out by status, and more.

## ABOUT VL

With over 20+ years of experience in the data integration industry, VL is a team of dedicated integration experts, programmers, EDI specialists, marketing professionals, and much more.

VL OMNI, VL's cloud-hosted point to multi-channel data integration service, meets the complex needs of these sophisticated retailers. Over 200 active customers trust VL as their data integration partners for real-time accurate customer order data, shipment details, inventory, and prices.
